Welcome to Sea Change Family Chiropractic!

Welcome to our office! Rest assured that you will be provided the most appropriate and professional healthcare possible. Our most important goal is the constant improvement and maintenance of your health.

When a person seeks our care and when we accept a patient for such care, it is essential that we are both working towards the same goals. The goal of our office is to allow your body to function at its highest potential, free from interference and stress that causes dysfunction, disease, and eventually symptoms and sickness.

Most importantly, you must understand that our care is not a substitute for medical treatment of any kind, in anyway, or for any reason. The medical approach treats symptoms and diagnoses conditions and diseases. Patients usually go to their medical doctors to get rid of whatever symptoms or conditions are bothering them. This is symptom, sickness and disease care, and is necessary in emergency situations.

Our approach recognizes that you get symptoms for a reason, attempts to find the cause of the symptoms, and addresses the function of the whole body. This is how we define healthcare; focusing on the optimum function of the individual, and it is what we do in our office.

The purpose of Chiropractic care is to restore and maintain the integrity of the spine, spinal cord and its nerve roots. Vital nerve pathways are housed within and protected by the bones of the spine call vertebrae. The presence of vertebral subluxation complex is where the transmission of normal nerve impulses have been negatively affected by, and also causing loss of normal spinal biomechanics. These are referred to as subluxations. With appropriate Chiropractic care, these subluxations can be reduced and corrected, which will restore normal nerve function. A properly functioning nerve system is the foundation to good health.

The information you provide on the following pages is vitally important. For this reason, please fill out our history forms completely and to the best of your ability so that we can quickly get you on the road to health. We look forward to a healthy relationship with you and your family.

I, _____, have read the above, understand it.
